

# FWPA Data Dashboard

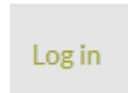

The intention of the dashboard is to provide easy access in the one location for a range of public domain and industry data sets.

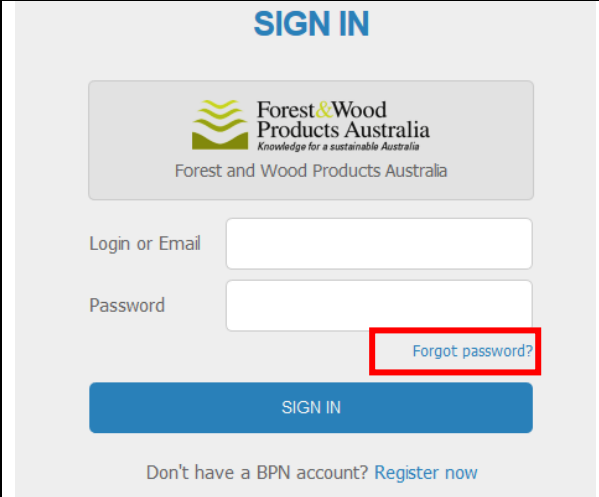

## Log In

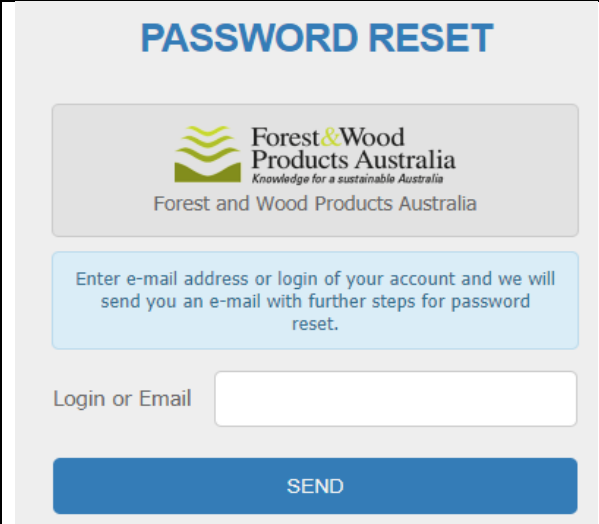

Moving to the new system we were not able to bring passwords across. To create a new password hit "forgot password?" button and the system will send you an email link to reset your password. The required steps are as follows and the starting link is:

<http://e.fwpa.bpnaw.com>

Then hit the Log In button on the right hand corner

	<p>You will then see the Sign In box.</p> <p>Hit Forgot password?</p>
--	---

	<p>Insert <b><i>your email address</i></b> and hit send</p>
---	---

	<p>You will then see a dialogue box confirming that a password reset email has been sent.</p> <p>Please ignore the Go back to Login Page. This is an incorrect link.</p> <p>Use the link in the email which the system will send you.</p>
--	---

The next step is to check your emails for the reset password link

Hit confirm reset.

Then enter your password and hit reset.

--	--

You will then see the Password Reset dialogue box confirming the password change. Then use the link back to “Forest and Wood Products Australia”. Click this to go to the dashboard.

## Landing Page

Once you log in you will be directed to the opening landing page. In the first instance the system has been designed to replicate the familiar FWPA navigation with an interactive toolbar covering International, National and Domestic data sets.

[Home](#) [International](#) [National](#) [Domestic](#)

[Dashboards](#) [Materials](#)

### ≡ Welcome to the FWPA data dashboard

The intention of the dashboard is to provide easy access in the one location for a range of public domain and industry data sets.

Other information of a more specialised nature is available for individual industry contributors to the FWPA data aggregation system.

The navigation is driven by the navigation tool bar at the top of dashboard area which triggers a series of drop down menus. In addition within products groups you can continue to drill down using the interactive links. The data sets presently covered under these navigation groups are:

#### **International**

- Export
  - AHECC Summary 4 digit
  - AHECC 8 digit (57 products)
  
- Imports
  - HTISC Summary 4 digit
  - HTISC 10 digit (88 products)
  
- Exchange Rate Information
  
- New Zealand
  - Plantation Removals
  - Sawn Timber Production
  
- U.S.A
  - West Coast Delivered Sawlog Prices (British Columbia, Washington)
  - US South Delivered Log Prices
  
- Europe
  - Sawlog Prices
    - Sweden
    - Finland
    - Norway
    - Estonia
    - Lithuania
  
- China

## **National**

- GDP
  - Growth Seasonally Adjusted
  - Contributions to Growth
  
- Residential Housing Approvals
  - Australia Approvals
  - States and Territories Approvals
  
- Alterations & Additions Approvals
  
- Housing Credit
  - Housing Loan Approvals
  - Purchase or Construction of New Dwellings
  - Loans Alterations and Additions
  
- Customer Price Index
  - Headline CPI
  - Underlying CPI
  
- Employment
  - Unemployment Seasonally Adjusted
  - Employment Seasonally Adjusted
  
- Retail Sales
  - Retail Sales Current Prices
  - Retail Sales Adjusted (Chain Volume Measures)
  - Retail Sales Selected Industries (including Furniture, Hardware)
  
- Vehicle Sales

## **Domestic**

- Softwood Data Series

## **Navigation and Drill Down Menus**

### **Opening landing page/Navigation Tool Bar Structure**

Step 1>drop down menu (hit tab) >specific data series

Step 2 >landing page (hit graph title)

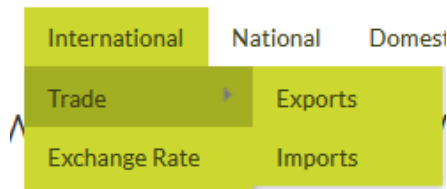

Step 3 > 12 month rolling comparison tables (hit specific data reference)

To explain the dashboard navigation in more detail the following example based on the trade data is outlined below. This covers all the navigation features of the dashboard and the same principles apply when accessing any of the other data sets.

## Step1

Home International National Domestic

≡ Welcome to the FWPA data dashboard

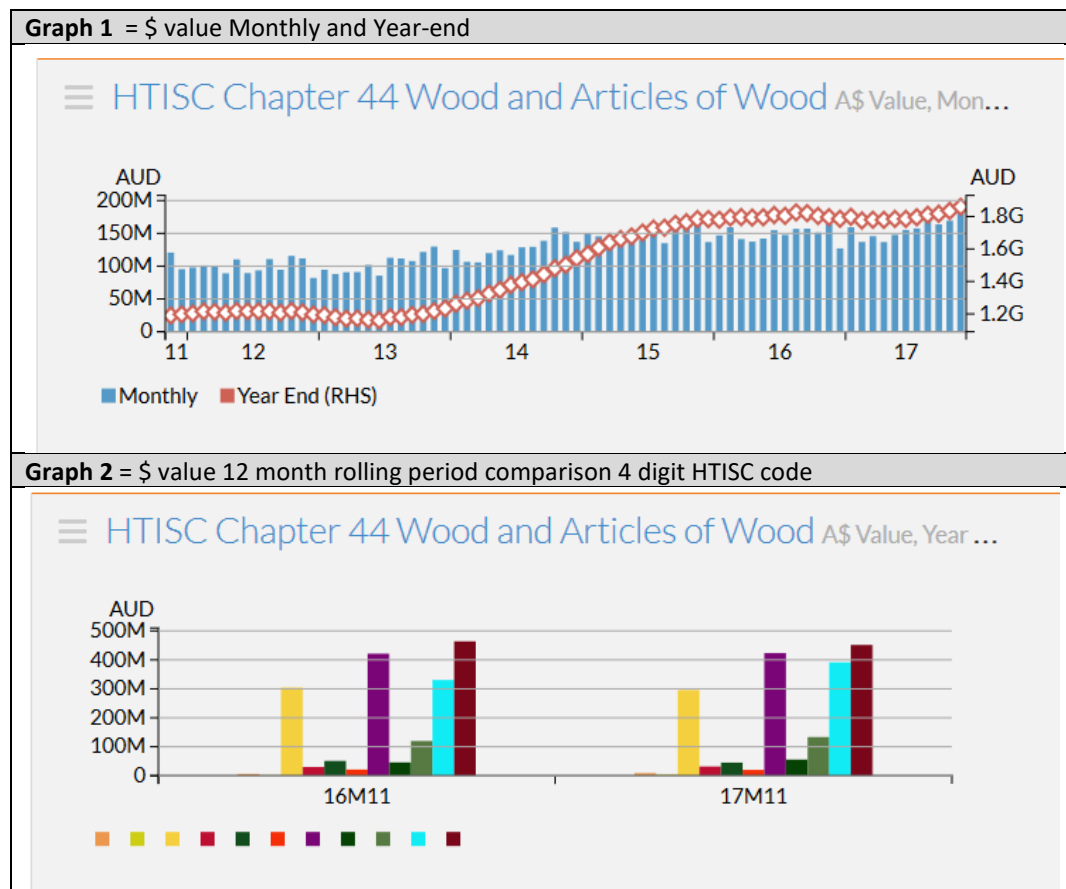

International Tab>Imports

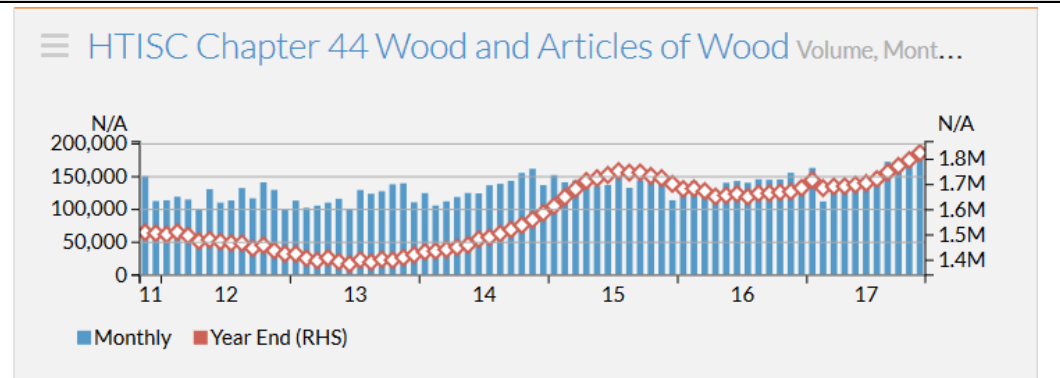

## Step 2

Landing Page

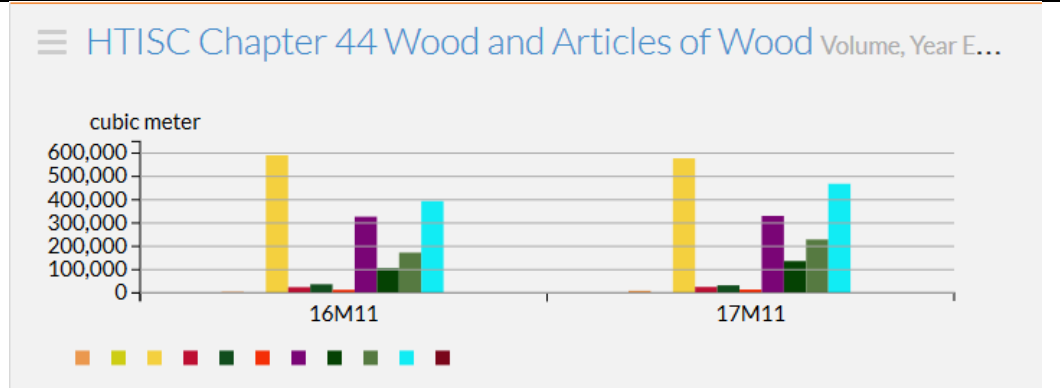

This will take you to the imports landing page. The display of the landing page will vary depending on your browser and screen size. Generally each landing page will provide you with access to 4 interactive graphs as you scroll down the page.

**Graph 3 = Volume Monthly and Year-end**

**Graph 4 = volume 12 month rolling period comparison 4 digit HTISC code**

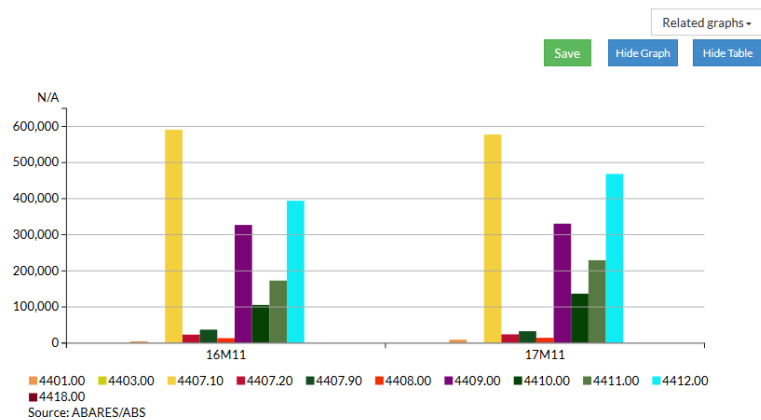

The graph title is interactive and will enable you to drill down further into the underlying data.

**Step 3a**

In this example we will follow Graph 4. Hit the graph title and it will take you to the detailed 12 month rolling period comparison graph and associated table.

HTISC Chapter 44 Wood and Articles of Wood Volume, Year  
End - Import

<input checked="" type="checkbox"/>	Color	Description	Graph type	Graph style	Axis	16M11	17M11	% Change
<input checked="" type="checkbox"/>		<a href="#">4401.00</a>	Bar	Solid	Left	4,934	9,500	92.54%
<input checked="" type="checkbox"/>		<a href="#">4403.00</a>	Bar	Solid	Left	527	492	-6.64%
<input checked="" type="checkbox"/>		<a href="#">4407.10</a>	Bar	Solid	Left	590,986	577,708	-2.25%
<input checked="" type="checkbox"/>		<a href="#">4407.20</a>	Bar	Solid	Left	23,369	24,067	2.99%
<input checked="" type="checkbox"/>		<a href="#">4407.90</a>	Bar	Solid	Left	37,200	32,794	-11.84%
<input checked="" type="checkbox"/>		<a href="#">4408.00</a>	Bar	Solid	Left	13,591	14,636	7.69%
<input checked="" type="checkbox"/>		<a href="#">4409.00</a>	Bar	Solid	Left	327,146	330,644	1.07%
<input checked="" type="checkbox"/>		<a href="#">4410.00</a>	Bar	Solid	Left	105,582	136,788	29.56%
<input checked="" type="checkbox"/>		<a href="#">4411.00</a>	Bar	Solid	Left	173,001	229,446	32.63%
<input checked="" type="checkbox"/>		<a href="#">4412.00</a>	Bar	Solid	Left	394,358	468,505	18.80%
<input checked="" type="checkbox"/>		<a href="#">4418.00</a>	Bar	Solid	Left	0	0	N/A

From the comparison table you can then navigate down into the specific product groupings using the interactive product codes.

**Please note** that to view the entire comparison tables you need hit the expansion bar/tab. This is the 3 dots located next to the table date range.

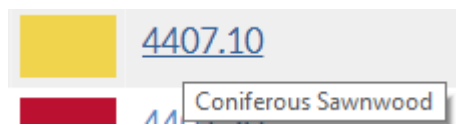

Date:   -    ⋮

Toggle this to change the display as required.

### Step 3b

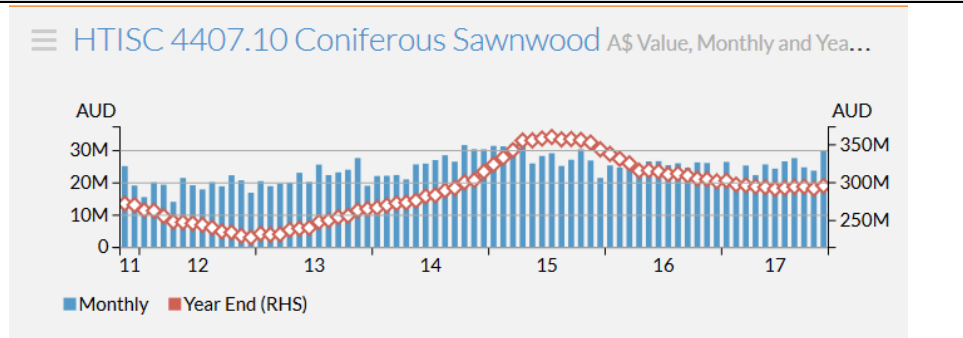

For instance if you want to view all of the softwood sawntimber imports hit [4407.10](#)

If you hold your mouse over the link without clicking you will see a description of what the code is

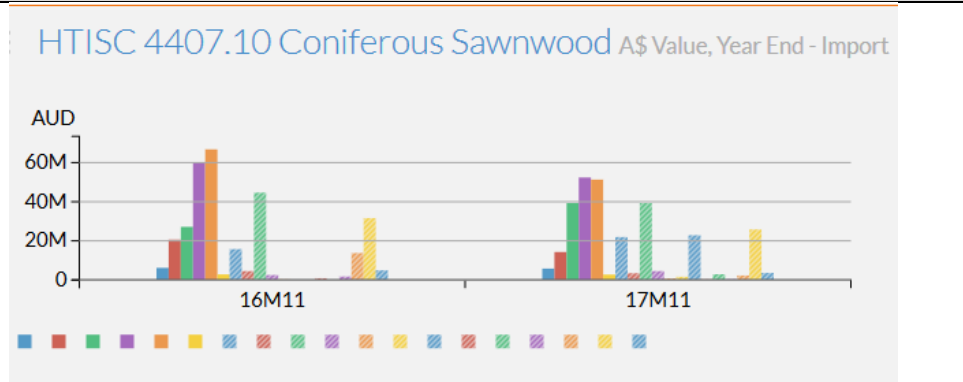

This will take you to the [4407.10 Coniferous Sawnwood](#) landing page which is structured with graphs for \$ value and volume.

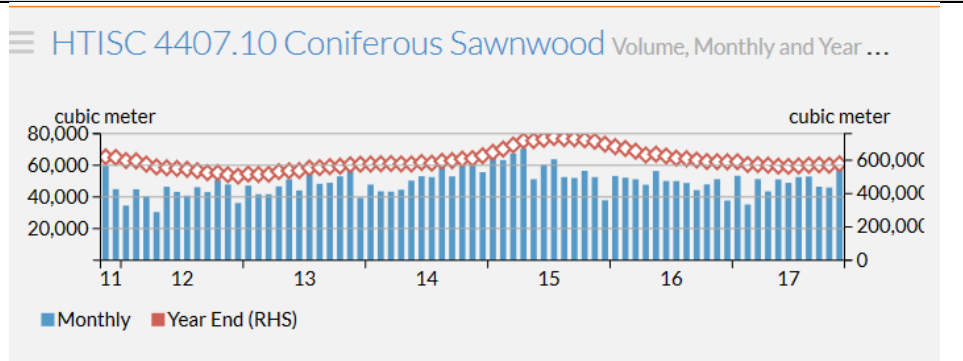

**Graph 1 = \$ value Monthly and Year-end**

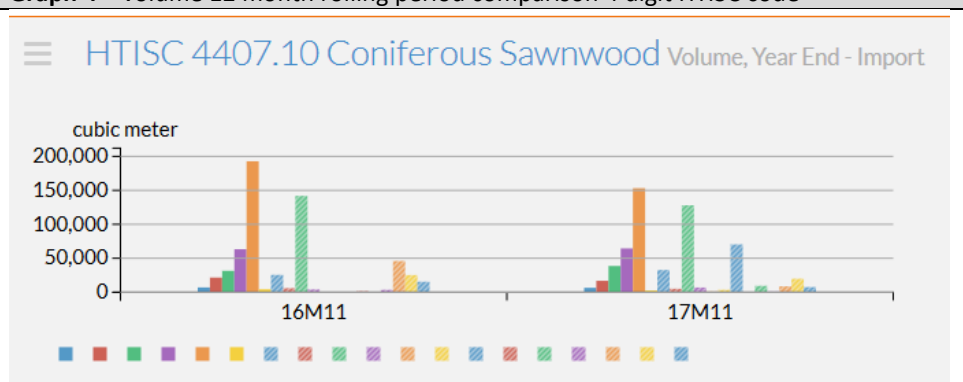

**Graph 2 = \$ value 12 month rolling period comparison 4 digit HTISC code**

**Graph 3 = Volume Monthly and Year-end**

**Graph 4 = volume 12 month rolling period comparison 4 digit HTISC code**

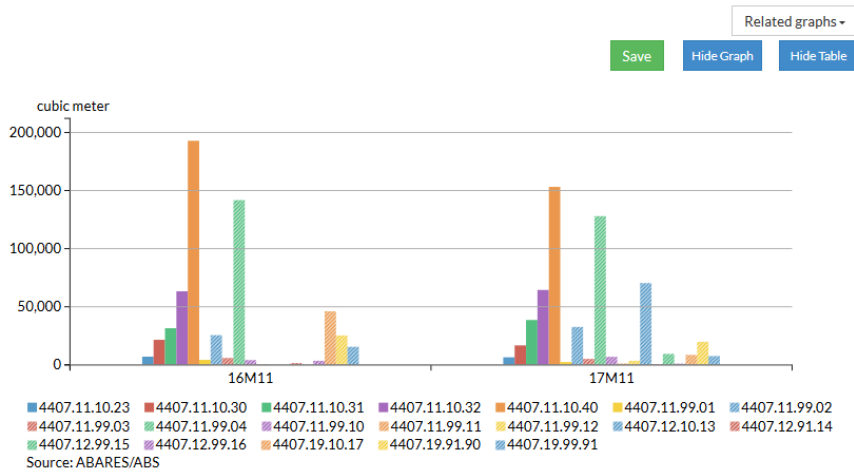

**Step 3c**

In this example we will follow Graph 4. Hit the graph title and it will take you to the detailed 10 digit HTISC code data based on 12 month rolling period comparison.

HTISC 4407.10 Coniferous Sawnwood Volume, Year End - Import

The period comparison table then provides at a glance update of movements in the 12 month period and the percentage change for all the products being tracked.

<input checked="" type="checkbox"/>	Color	Description	Graph type	Graph style	Axis	16M11	17M11	% Change
<input checked="" type="checkbox"/>		4407.11.10.23	Bar	Solid	Left	7,091	6,540	-7.77%
<input checked="" type="checkbox"/>		4407.11.10.30	Bar	Solid	Left	21,599	16,791	-22.26%
<input checked="" type="checkbox"/>		4407.11.10.31	Bar	Solid	Left	31,550	38,640	22.47%
<input checked="" type="checkbox"/>		4407.11.10.32	Bar	Solid	Left	63,320	64,499	1.86%
<input checked="" type="checkbox"/>		4407.11.10.40	Bar	Solid	Left	192,829	153,156	-20.57%

**Please note** that to view the entire comparison tables you need hit the expansion bar/tab. This is the 3 dots located next to the table date range.

Date: 2016 M11 - 2017 M11

Toggle this to change the display as required.

### Step 3d

To navigate to all the data (including monthly data and country of origin data) for that particular 10 digit product just hit the HTISC number. In this example we will drill down into 4407.11.99.04

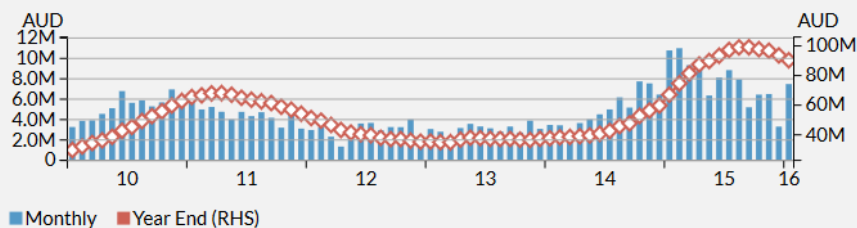

<input checked="" type="checkbox"/>		<a href="#">4407.11.10.40</a>	Bar	Solid	Left	192,829
<input checked="" type="checkbox"/>		<a href="#">4407.11.99.04</a>	Bar	Solid	Left	19
<input checked="" type="checkbox"/>		<a href="#">4407.11.99.02</a>	Bar	Solid	Left	25,611

Note: WOOD SAWN: Coniferous Dressed: Planed or Sanded: Other; Coniferous Untreated: Excl; Weatherboards, Radiata Pine

This will take you to the 4407.11.10.40 landing page which is structured with graphs for \$ value and volume.

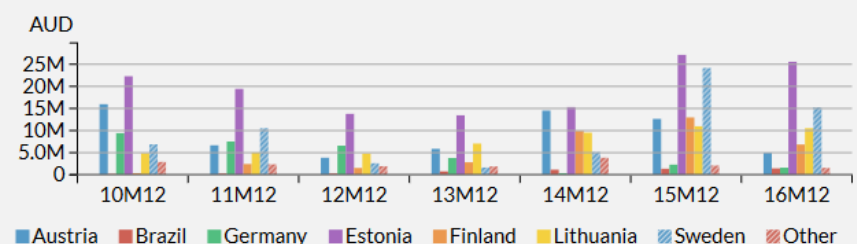

**Graph 1 = \$ value Monthly and Year-end**

HTISC 4407.11.10.40 Sawnwood Coniferous - Other Dr...

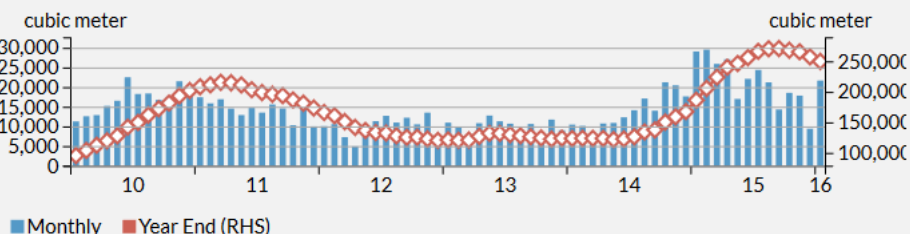

**Graph 2 = \$ value 12 month rolling period comparison 4 digit HTISC code**

HTISC 4407.11.10.40 Sawnwood Coniferous - Other Dr...

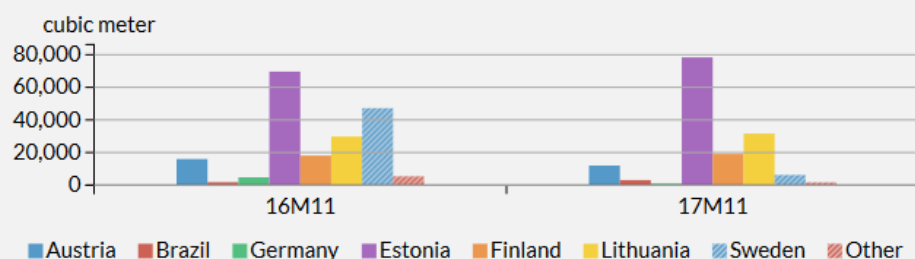

**Graph 3 = Volume Monthly and Year-end**

HTISC 4407.11.10.40 Sawnwood Coniferous - Other Dr...

**Graph 4 = volume 12 month rolling period comparison 4 digit HTISC code**

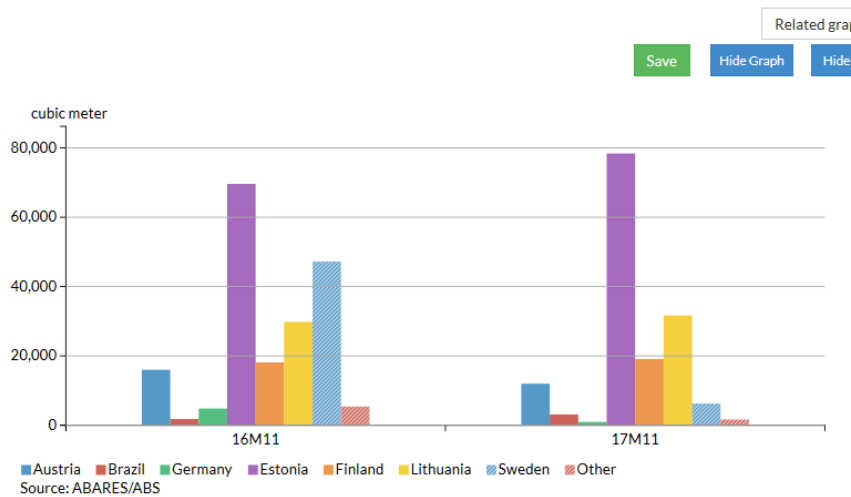

HTISC 4407.11.10.40 Sawnwood Coniferous - Other Dr...

### Step 3e

As with the earlier landing page examples we will follow Graph 4. Hit the graph title and it will take you to the detailed country of origin data based on 12 month rolling period comparison.

≡ HTISC 4407.11.10.40 Sawnwood Coniferous - Other  
Dressed excl. Radiata Pine Volume, Year End - Import

<input checked="" type="checkbox"/>	Color	Description	Graph type	Graph style	Axis	17M01	18M01	% Change
<input checked="" type="checkbox"/>		Austria	Bar	Solid	Left	14,004	15,601	11.40%
<input checked="" type="checkbox"/>		Brazil	Bar	Solid	Left	2,343	2,571	9.73%
<input checked="" type="checkbox"/>		Germany	Bar	Solid	Left	4,523	1,988	-56.05%
<input checked="" type="checkbox"/>		Estonia	Bar	Solid	Left	71,580	89,887	25.58%
<input checked="" type="checkbox"/>		Finland	Bar	Solid	Left	17,255	19,216	11.36%
<input checked="" type="checkbox"/>		Lithuania	Bar	Solid	Left	32,155	32,008	-0.46%
<input checked="" type="checkbox"/>		Sweden	Bar	Dashed	Left	41,705	10,304	-75.29%
<input checked="" type="checkbox"/>		Other	Bar	Dashed	Left	4,397	4,321	-1.73%

Monthly Data

To access the country of origin data month data simply hit the monthly data tab at the bottom of the table.

**Please note** that to view the entire comparison tables you need hit the expansion bar/tab. This is the 3 dots located next to the table date range.

Date:   -

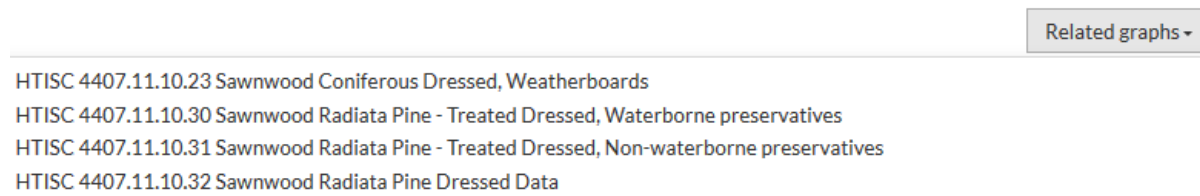

Toggle this to change the display as required.

## Other Features

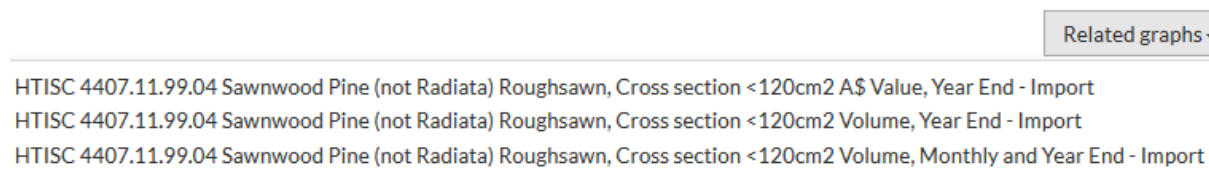

### Navigating within a product grouping

At any trade data landing page you can quickly navigate to other products within the group by using the related graphs tab at the landing page

### Navigating within a landing page group

The related graphs tab has been created to enable quick navigation to any of the other graphs in the landing page quadrant.

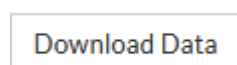

### Date Range

You can arrange the date period as required by adjusting the date range.

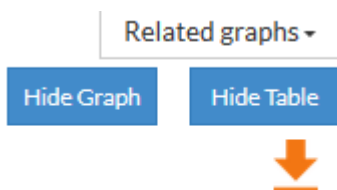

### Download Data

You can download the data displayed in the graph as a CSV file by hitting the download data tab

### Download Picture of Graph

The download picture arrow appears when you scroll over the area in the top right hand corner of the graph. Hit this to download a picture of the graph.

All these features can be seen in the following page view graphic
